WEIGHTED BLANKETS

Knitted weighted blanket.

Weight without filling, beads or pockets

ABOUT

A weighted blanket knitted from a thick cotton tube yarn. The weight is in the yarn itself, spread evenly across the whole blanket, so there is nothing to shift, bunch or leak.

CONSTRUCTION

Knitted in one piece, no seams. Edges are self-finished in the knit. Stitch, yarn and gauge set the weight and the look.

WEIGHT

Made to the weight you specify. Weight is set by yarn and stitch density, so a lighter and a heavier version of the same stitch look alike.

SIZE

Made to the size you specify, from lap and throw sizes to full bed sizes.

YARN AND COLOUR

Cotton tube yarn, dyed to the palette shades or matched to your Pantone reference. Two or more colours in one blanket where the design asks for it.

EDGE

Self-finished knitted edge as standard. Blanket stitch or crochet border to your specification.

Made to order. Weight, size and colours to your reference.
