Baby bedding size chart by region

Cot and crib mattresses, fitted cot sheets, blankets and swaddles in the sizes each region sells. Confirm against the exact cot before ordering; the safety requirements for baby bedding are set by your market.

Baby and nursery sizes: United Kingdom and Ireland

The main baby bed is a cot or a larger cot bed, and bedding is sold to those two mattress sizes. A crib here means a small early sleeper, so a UK crib sheet is far smaller than a US one.

Mattress sizes

Moses basket	74 x 28 cm 29 x 11 in
Crib (small sleeper)	89 x 38 cm 35 x 15 in
Cot	120 x 60 cm 47 x 24 in
Cot bed	140 x 70 cm 55 x 28 in
Cot bed, less common	132 x 70 cm 52 x 28 in

Moses basket and crib mattresses vary by maker; 66 x 28 cm and 84 x 40 cm are also sold.

Cot mattresses cluster around 130 x 69 cm, with 132 x 70 cm also used, and every cot states its own mattress size. Bassinets have no agreed size, so their sheets vary by maker.

Cot, larger	132 x 70 cm 52 x 28 in

How to measure baby and nursery

1. Start from the mattress, not the name of the bed: measure its length, width and depth, because cot, crib and cot bed mean different sizes in different markets.
2. Specify a fitted sheet by the mattress length and width plus the pocket depth. Cot mattresses are shallow, usually 8 to 13 cm (3 to 5 in).
3. Quote sizes the way the market does: length first in the UK (120 x 60 cm), width first on the Continent (60 x 120 cm), and inches in the United States and Canada.
4. Blankets, swaddles and quilts are sized to drape, not to the mattress, so give the finished size and the construction together.
5. For small sleepers such as bassinets, Moses baskets and bedside cribs, always ask for the mattress size of the exact product; there is no shared standard.
