Throw and blanket size chart by region

Sofa throws, bed throws and blankets in the sizes each region sells. They are reference sizes: knitted and woven throws are made to the size you specify.

Throws and blankets sizes: United Kingdom and Ireland

The UK sells throws in centimetres, with 130 x 170 the standard sofa size and larger throws doubling as bedspreads. Traditional wool blankets are still sold by bed size. Ireland follows the same sizes.

Reference sizes that retailers in each region sell, not a universal standard. Everything we make is made to order, so send the sizes in your own range and we confirm them before sampling.

How to measure throws and blankets

1. Quote width by length as a finished size, and say whether fringe or tassels are included in the length.
2. State whether the measurement is taken before or after washing, because knits relax and can shrink on the first wash.
3. Measure a knitted throw laid flat and unstretched, as a knit hung or pulled will measure longer.
4. For a bed throw, start from the mattress width and add the drop wanted on each side, instead of relying on a bed name.
5. Put the dimension beside every size name, because throw, large and double mean different measurements in different markets.
